

Doorbell Connect, WIFI, with 1080p camera, 2-way audio, IP44, Black, and IP20 White Chime

The Robus Doorbell Connect with integrated 1080P camera adds even greater functionality to the Connect range. It can be used as a simple doorbell to let you know someone is at the door, or using enhanced functionality, allow two-way conversations, photo and video recording, notifications, and triggers for other actions

**Applications:**

- Internal or External areas of:
  - The home
  - Shops
  - Pubs
  - Restaurants
  - Hotels

**Construction:**

All polycarbonate body  
Aluminium/FR4 Composite PCB

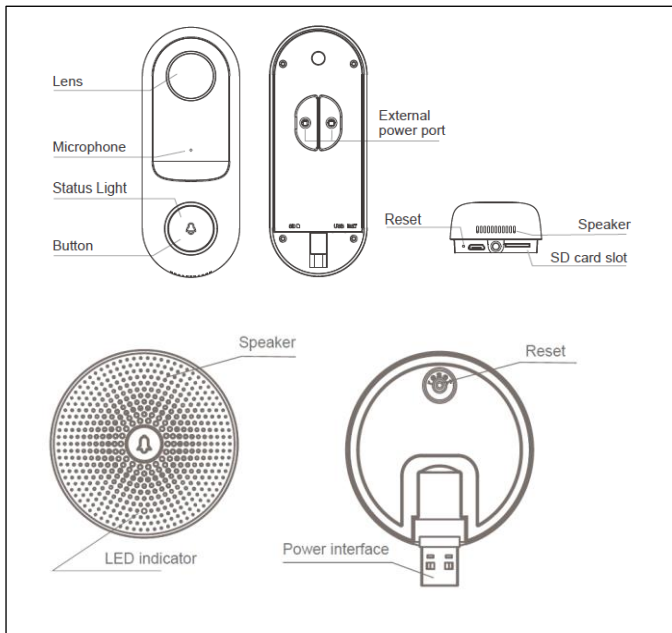

**Features and Benefits:**

- Runs off a standard bell transformer or other power source of 12V – 24V ac or DC which allows easy installation
- The doorbell is Wi-Fi enabled so controlled from the same Robus Connect App as all Connect products
- Simple pairing process so anyone do it
- Integral 1080P video camera so high resolution photos or videos can be taken
- Default two-way audio so caller and owner can communicate
- Audible chime from the doorbell so the owner and caller knows the system has been activated
- A separate USB powered Chime accessory can be “Bound” to the doorbell and placed where required
- Notification sent to the owner of a caller by phone notification and/or Chime accessory
- Caller is photographed when the doorbell is activated so allows the owner to see the caller prior to speaking
- Integral SD card slot takes up to 128GB for up to 16 days continuous recording
- Optional Cloud storage available for longer durations away from home
- The camera can be set to record to SD card continuously or only when activated by movement in its view
- Screenshots and video recordings can be activated from the App at any time and are stored on the phone for quick access
